

Definitive Surgical Trauma Care Course (DSTC)

DSTC Australasia in association with IATSIC (International Association for Trauma Surgery and Intensive Care) is pleased to announce the courses for 2012.

The DSTC course is an invigorating and exciting opportunity to focus on:

- Surgical decision-making in complex scenarios
- Operative technique in critically ill trauma patients
- Hands on practical experience with experienced instructors (both national and international)
- Insight into difficult trauma situations with learned techniques of haemorrhage control and the ability to handle major thoracic, cardiac and abdominal injuries

In conjunction with many DSTC courses the Definitive Perioperative Nurses Trauma Care Course (DPNTC) is held. It is aimed at registered nurses with experience in perioperative nursing and allows them to develop these skills in a similar setting.

The Military Module is an optional third day for interested surgeons and Australian Defence Force Personnel and is currently available at the time of the Sydney course only.

DSTC is recommended by The Royal Australasian College of Surgeons for all Consultant Surgeons and final year trainees.

For general course enquiries, please contact
Sonia Gagliardi on (61 2) 8738 3928
or email: sonia.gagliardi@sswhs.nsw.gov.au
